**SECOND
PLANTER®**

**BEAUTY IN THE
BLINK OF AN EYE**

Newly reimagined for Spring 2025, the 30-Second Planter is designed to be the easiest entry point into container gardening for budding gardeners and those pressed for time. In literally 30 seconds or less, their containers and landscapes can be overflowing with gorgeous blooms that have proven to be compatible in recipes. Simple planting instructions and a QR code are printed on the container for additional reference.

Contact Four Star Greenhouse or Pleasant View Gardens with questions. These can be used in conjunction with the bundled kit program which includes the recipe-specific hang tag (stake tags are not included).
