RECIPES

Meet Your Three New Best-Selling Recipes

Looking to give your sales an extra boost in spring, summer and fall? Growers and retailers have had remarkable success with our popular National Recipe program. Our trial managers and propagators have chosen three easy to grow, festive recipes to celebrate the seasons and consistently draw customers in for fresh product. Capitalize on our national marketing efforts to promote these recipes and you'll see a boost in sales throughout the seasons.

Lilac Festival showcases consumers' favorite purple color palette with vigorous Supertunia and Superbena varieties. You'll have flourishing hanging baskets to sell in spring, and their heat tolerance will keep them in color all the way into fall in consumers' gardens. Extend the purple theme by using Meteor Shower® as a thriller in upright patio containers to draw butterflies and hummingbirds in close.

Summerfest embodies the spirit of summer with its invigorating gold, coral and purple hues. This recipe features three of our top 50 best-selling varieties combined to create a dynamite national summer recipe. Add Prince Tut™ as a thriller and you'll have high value upright containers to offer too.

Enchanted Garden is an exhibition of high contrast; dramatic black and white hues set the stage for lavish scarlet Supertunia Black Cherry™ petunias which echo the mood of majestic fall landscapes. Stratosphere™ White adds a bit of whimsical height to hanging baskets and upright recipes.

2018 National Summer Recipe

With Liberty

The Container Style™ Program Means No Extra Tags

Combination planters may be the highest priced plant item you sell, yet many times they are not labeled or the tags are buried in the soil. With the Container Style Program, you get one large, prominent tag for the complete combo.

When placing your order for liners, just let our propagators know these will be used for combinations and we will provide the proper combination tag that is suitable for hanging baskets or for upright containers. You don't need to worry about the cost of extra stake tags. When ordering multi-liner combinations, the appropriate tags will come automatically.

How to create your own custom tag:

Contact your customer service representative at the Proven Winners propagator of your choice with the information needed to set up the tag, including the name of the combination and the ingredients list. Your Proven Winners propagator will then pass on this information to the tag company, and the tags will be sent to you.

Please keep in mind the minimum tags per combination recipe is 210 (bundled in groups of 21).

So, if you have a recipe you'd like to repeat for several years we'd be happy to set the tag for you.

NO WORK-AL

Tag is perforated so it can zip open around a basket's hanger.

For upright containers, the tag can be converted to a stake tag by removing the hang-down portion and attaching the tag to a bamboo stake.

Customized 3.5" x 14.35" Container Style tag for hanging baskets and upright containers

Container Style Sun Tag

Container Style Shade Tag
